

PAYMENT ORCHESTRATION

Supercharge your payment acceptance with an intelligent orchestration hub

The **Next-Gen Payment Orchestration**
designed for smart routing, cost efficiency, and real-time control.

High Success Rates

Route transactions to the most reliable path instantly

Multi-Payment Rails

Cards, UPI, and net banking, all handled effortlessly in one place

Optimized Costs

Lower IC and MDR through intelligent decision rules.

Zero Leakages

End-to-end transaction protection with compliance safeguards.

Always Compliant

PCI, ISO, RBI, NPCI, and global scheme-aligned processes.

Faster Market Launches

Deploy multi-channel acquiring in record time.

An all-in-one Orchestration framework

That connects, manages, and optimizes every payment rail you run

Smart Transaction Routing

Dynamically direct traffic based on cost, TPS, issuer, and performance data.

Unified Multi-Rail Processing

Run all channels on one orchestration layer without separate integrations.

Built-In Risk & Compliance

Embedded FRM, kill switches, and compliance checks at every stage.

Rapid Integration

One-time API connection to access the full orchestration suite.

High Availability

Cloud-native design with 99.90% uptime for uninterrupted service.

Modular Extensibility

Add payment rails, modular solutions or analytics as your needs grow.

Seamlessly
connect all your
payment rails
into one
orchestration
flow

Switch & Gateway Integration

Mylapay SwitchX, C-Switch, U-Switch, along with third-party gateway support.

Bank & Network Connectivity

Direct connections to payment gateway banks, card schemes, and NPCI.

Built-In Risk Layer

Tokenization, 3DS, FRM, and kill-switch support to safeguard every payment.

Settlement & Reconciliation

Integrated with Mylapay's IntelSettle for cards and IntelPro for UPI.

Dispute Resolution

Powered by IntelSolve for efficient chargeback handling and rapid recovery.

Dashboard Insights

Intel360 integration for real-time financial intelligence to drive profitability.

Enterprise-Grade Infrastructure

Engineered for high performance.

Compliance-First. Developer-Friendly. Future-Ready.

Highly Adaptable

Customizable with flexible deployments to client needs

Supports 5000+ TPS

Customizable throughput with high success rates

User-Friendly APIs

Simplified integration for faster go-to-market

Cloud-Native Platform

Resilient, secure, effortlessly scalable - 99.9% uptime

Global Security Compliant

Certified with CardNetworks

Compliance Auditors
